

SeniorSSuperStoreS Gift Certificate Instructions

If you receive a Gift Certificate that was purchased for you, these instructions provide guidance about how to redeem it.

The Gift Certificate contains a unique code that has been assigned, and that code is necessary for you to redeem the Certificate when you redeem your Certificate by making a purchase. The Certificate has no monetary value other than for purchasing from SeniorSSuperStoreS.

If you order online at www.SeniorSSuperStoreS.com, make your merchandise selection(s) by adding it to your shopping cart. When you checkout, the first page asks for your billing and shipping information. The second page is where you enter your payment information. Check the Gift Certificate payment option, and a few lines below enter the Certificate Code. If the amount of purchase is greater than the amount of the certificate, you will need to enter your payment option for the balance of your purchase.

If you wish to order offline from our catalog (or by printing out our Offline Order Form from our Home Page), please provide us the Certificate Code and balance payment option at the bottom of the form where you are asked to provide payment information. While our catalog does not contain all of our merchandise offerings, you can order anything you find on our web site using the enclosed order form(s).

If you encounter any problems redeeming your Gift Certificate, please contact us at 1-888-719-7938 (and leave us a message if we are not available) or email us at mail@seniorssuperstores.com.
