

FREE BENEFIT for Customers of www.SeniorSSuperStoreS.com

To show our appreciation to our customers, we have made special arrangements with two of the nation's largest and most respected Pharmacy Benefit Managers to save you on your prescription drugs.

Since this is a free gift from us to you, there is **no charge to receive or use the SaveOnRxDrugs Discount Prescription Drug Card.**

We will email the card to you just for shopping with us. All you need to do is print it out and cut out the card itself from the instruction sheet and take it to your pharmacy. **Your benefit ID number is 890291012.**

And, we encourage you to forward a copy of your card to friends and family who may need the help that the card provides. So, not only is it free to you, it is free to whomever you want to share it.

It has no expiration date. It can be used an unlimited number of times and provides **savings of 10-85% on Prescription Medications. Average savings are 15% for Brand-Name Drugs and 55% for Generics.**

This Program has saved Cardholders over \$34 million in 2009, so we are extending the benefits to you.

The Card can be used at more than one pharmacy and is accepted at 80% of ALL pharmacies in the Nation.

Activation is NOT required. Just present it to your pharmacist - It can be used immediately without restriction.

What if you already have insurance or Medicare that helps with your prescriptions?

The Card is most helpful to the uninsured, under-insured and Medicare recipients who fall into the Medicare "coverage gap" or are without prescription coverage,

It can also be very useful to the growing number of people who have insurance with high deductible policies and high co-payments, and it provides discounts on medications not typically covered by many insurance policies.

There are approximately 50 Million Americans without any healthcare or prescription benefits and many more with high deductible policies or limited coverage! Retail prescription prices continue to increase every year.

Insurance companies are constantly changing their formularies and increasingly limiting which drugs they will pay for. Examples such as birth control, diabetic supplies, smoking cessation medications, erectile dysfunction drugs are subject to the discretion of insurance companies that they decide are not cost effective, so they are often not covered by many insurance policies or Medicare. Our program applies to ANY & EVERY FDA approved drug.

Additionally, very often Generic Drugs can be obtained at lower pricing using this Card than a typical co-payment with many insurance policies.

If you have Medicare Part D: this program can be used to secure discounts on drugs that are excluded from that government program. It will also provide discounts when a Medicare recipient reaches the hated "Coverage Gap".

Drug pricing comparisons and participating pharmacies may be found by visiting the issuing company's web site at www.SaveOnRxDrugs.com. This enables you to select a pharmacy with the lowest available pricing on the medications you need and use.

SaveOnRxDrugs also supports the Program with a **Toll Free Customer Service Line**. Cardholders may call with questions and for assistance at any time toll free at [1-888-919-1955](tel:1-888-919-1955).

How can this Program be FREE? - Because of the SaveOnRxDrugs relationships within the Pharmaceutical Industry and the volume of business that they bring. Lower drug prices have been negotiated for the Program and for Cardholders. Drug Card savings are provided through the SaveOnRxDrugs association with Healthtrans, one of the largest Pharmacy Benefit Managers in the country, along with pharmaceutical companies, and with independent and chain pharmacies.

Just present your Discount Card to the pharmacist and save.

What prescription drugs can you receive discounts on? All prescription drugs are eligible for discounts with the SaveOnRxDrugs.com Discount Drug Card - - even medications that are not covered by health insurance. You can obtain your prescriptions at greatly reduced rates.

A Doctor's Prescription Is Required.

You have no forms to fill out to become eligible for your card and the program.

This is a Bearer Card - You do NOT need to provide any personal information - not even your name to get the card.

Consumers using The SaveOnRxDrugs Discount Prescription Drug Card will receive a discount approximately 96% of the time. The reason it is not 100% of the time is due to the fact that certain pharmacies, from time to time, price some drugs at COST to attract customers to their stores. In this situation, you would receive the pharmacy's LOWEST price.

How do you find a participating pharmacy? Most likely, your current pharmacy participates since more than 80% of all pharmacies nationwide participate. Thus, you are virtually assured that the pharmacy you currently use participates. You also may visit www.SaveOnRxDrugs.com and search for a nearby participating pharmacy or call [1-888-919-1955](tel:1-888-919-1955) and they will search for you.

How do you know if you are receiving a discount? Simply ask the pharmacist at the time of purchase how much of a discount you have received with your Card.

And, the best benefit of all: It's Free to customers of SeniorS SuperStoreS!
